Digital Inverter Compressor and 10 Year Warranty

TECH SPECS Capacity

Net Total(Liter) 363 Gross 393L

Net for Refrigerator(Liter) 276 L

Gross for Freezer(Liter) 87 L

Physical specification

Net Dimension (WxHxD)(mm)

Net for Freezer(Liter) 87

Gross Total(Liter) 393 L

Gross for Refrigerator(Liter)280

600 x 1,715 x 672

Digital Controlled

Freezer upto -5 to -24°C

Refrigerator chamber +1' to +7°C

Unlike conventional compressors, which just start and stop, Samsung's Digital Inverter Compressor has 7 adjustable speeds to suit different cooling demands. So it works smoothly, reduces wear and tear for greater durability, and minimises noise. Plus you'll enjoy the peace of mind that comes with lower electric bills and a 10-year warranty.

Moist Fresh Zone

Samsung's MoistFresh Zone is a smartly designed drawer that provides an optimal environment for storing perishable food, so it stays fresher longer. A tight seal prevents moisture from escaping when humidity levels are low, and a vent releases excess moisture when humidity levels are too high.

Cool Pack

In the event of a power outage or if the electricity is turned off, Cool Packs inside the freezer keep foods frozen for up to an hour with no power. They also help the freezer compartment stay cold for up to eight hours, so your food won't melt or spoil.

Easy Slide

Reaching into a refrigerator often means navigating an obstacle course of food items. But the Easy Slide shelf is built on rolling hinges and pulls out, so you can efficiently organise and easily access your food items – and easily see exactly what you have stored in the back.

Big Guard

Ideal for the thirsty household, the Big Guard is deeper than shelves found in conventional refrigerators. So you can store big containers of milk and juice in the door, along with two rows of beverage cans and bottles. The Big Guard is also great for chilling tall drinks bottles.

Deodorizing Filter

The Deodorizing Filter is made of Activated Carbon, which eliminates bad smells – keeping the air fresh and preserving the flavor of your food for longer.
