Conductivity Meter Digital Pen type pH TDS Salinity Temperature with combined electrode cell portable pen type 9 units of measure: pH, μ S/cm, mS/cm, ppm, ppt, mg/L, g/L, Celsius, Fahrenheit

Combination flat surface pH electrode with auto Ranging high accuracy conductivity cell

- Measures 5 parameters including conductivity, TDS, salinity, pH, and temperature using one electrode
- 9 units of measure: pH, μ S/cm, mS/cm, ppm, ppt, mg/L, g/L, Celsius, Fahrenheit
- Analog bargraph indicates trends
- Memory stores up to 25 labeled readings

AC-301-CPH Conductivity meter Digital pen With pH, TDS, salinity Temperature ATC with combined conductivity cell

Conductivity Meter Data Logger AC-301-DL Conductivity meter Data Logger

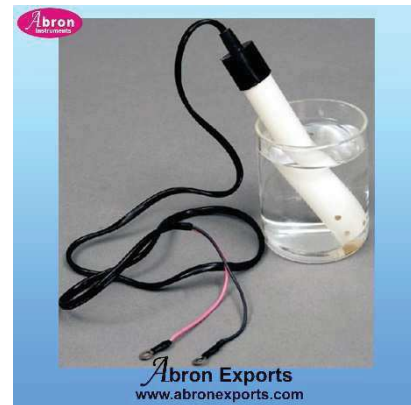

Conductivity Bridge Kohlrausch with magic eye Null Dial Type

With Magic Eye for NULL Point
With conductivity Cell Table type

AC-301-K conductivity Bridge Kohlrausch dial type magic eye Null With cell table model 220v 50 Hz
